HARRAP'S

I.Q.

LIST

+ + INTELLIGENCE TESTS + +

All the tests listed herein will, if properly used, provide sound data to guide teachers and others in the grading of pupils in schools, apprentices in industry, and similar groups. It is obvious that their administration should be in the hands of qualified persons. The publishers, in order to ensure that the fullest possible value is obtained from the tests, make every effort to safeguard distribution. In applying for copies, therefore, it is necessary for applicants to state their official position. Thus publisher and user can co-operate to see that maximum value is derived from the tests.

THE SOUTHEND GROUP TEST OF INTELLIGENCE

Size 11½×8½ inches. 8 pages, 6d. each (P.T. 1½d.); 25, 7s. 6d. (P.T 2s.); 100, 25s. 6d. (P.T. 6s. 11d.).

HANDBOOK with Instructions, Key, and Norms, 10d. net.

For ages 10½—13 years.

This test is designed to grade normal children who are about to enter the Secondary School. The items are graded in difficulty and consist of both verbal and non-verbal classifications and analogies. They are selected from tests which were originated by Dr William Stephenson at the Psychological Laboratory, University College, London, for measuring the general facts of intelligence. The resultant I.Q's are in the main comparable with those obtained by the London Revision of the Terman Scale.

THE SOUTHEND ATTAINMENT TEST IN MECHANICAL ARITHMETIC

Size 10×7½ inches, 8 sets of test sheets.

Per packet of 50 of any one set, 2s. 6d. (P.T. 8d.).

SPECIMEN SET—1 each of the 8 test sheets, 1s. 3d. (P.T. 4d.)

HANDBOOK, with Instructions and Answers, 10d. net.

This Arithmetic Test has been normed for an Elementary School population in an area reorganised according to the findings of the Hadow Report. Although the Test begins at the pre-six-year level, it was designed for use in the primary and post primary departments. The child's basic arithmetic-age is determined by the first year-group in which he can pass every test item, e.g., if he can pass every item in the 9-10, but fails one or more in year 10-11, then his basic arithmetic age is 10 years.

THE EDUCATION OF BACKWARD CHILDREN

By M. E. HILL, B.A., *formerly Educational Psychologist, Southend-on-Sea Education Committee. With an Introductory Chapter by* H. BOYES WATSON, M.C., M.A., *Chief Education Officer, Southend-on-Sea. Illustrated. Demy 8vo, 176 pages, 6s. net.*

This book describes the experiments which led to the compilation of the Southend Tests, listed above.

THE LANGUAGE AND MENTAL DEVELOPMENT OF CHILDREN

By A. F. WATTS, M.A. *12s. 6d. net*

A psychological study tracing the orderly development of children's powers to understand what they read and hear and to express their thoughts and emotions in speech and writing. An unusual amount of test material is included in the appendices.

THE MEASUREMENT OF INTELLIGENCE

By Dr LEWIS M. TERMAN. *256 pages, 14s. net.*

TEST CARDS and 1 RECORD BOOKLET, 4s. 6d. net (P.T. 1s. 5d.)

RECORD BOOKLETS. 25, 7s. 6d. (P.T. 2s.).

ABBREVIATED FILING RECORD CARDS. 25, 4s. 6d. (P.T. 1s. 3d.)

This material is suitable for use as an individual test for children of 3 years up to the adult stage. Prof. Terman, however, mentions that those with a mental age of less than 14 can seldom pass the whole of the test.

MEASURING INTELLIGENCE

A Guide to the administration of the NEW REVISED STANFORD-BINET INDIVIDUAL TESTS OF INTELLIGENCE

By LEWIS M. TERMAN *and* MAUD A. MERRILL, *Stanford University.. Demy 8vo. 476 pages 12s. 6d. net.*

While the original Stanford Revision, listed above, remains as valid a before, the new tests have a wider range and offer the advantage of retesting material in two equal and parallel scales. The time required depends on the age of the pupil.

RECORD BOOKLET. 12 pages. Forms L or M. Per 25, 8s. 6d. (P.T. 2s. 4d.)

RECORD FORM. 4 pages. Forms L or M Per 25, 4s. 6d. (P.T. 1s. 3d.); per 100, 14s. 6d. (P.T. 4s.).

TEST MATERIAL. Printed Card Material in packet. Forms L and M. Each 5s. 6d. (P.T.—2s. 8d. each.)—Suitable files for holding these cards obtainable from Messrs. Hunt & Broadhurst, Oxford.

COLOURED BEADS. Per box 3s. 6d. (P.T. 10½d.).

COLOURED CUBES. Per box 2s. 6d. (P.T. 6d.)

Extra Writing Pads for Terman Sets, 4d. each (P.T. 1½d.); 12, 3s. 4d. (P.T. 1s. 1d.)

N.B.—The Boxes of Performance Materials for testing young children are not at present available.

THE REVISION OF THE STANFORD-BINET SCALE

By Prof. QUINN McNEMAR. *Introduction by Prof. Terman. 200 pages, 10s. 6d. net.*

Explaining the new (1937) Revision and how it came to bc compiled.

THE HERRING REVISION OF THE BINET-SIMON TESTS

By PROF. J. P. HERRING.

TEACHERS' MANUAL, with Exam. Card, 4s. 6d. net.
RECORD CARDS. Form A. In Packets of 25, 5s. net. (P.T. 1s. 4d.)

This individual test provides similar but alternative material to the above.

NON-VERBAL INTELLIGENCE TEST

By GEORGE F. SLEIGHT, M.A. *Size 11×8½ inches. 20 pages 8d. each (P.T. 2d.). Per Packet of 25, 12s. 6d. (P.T. 3s. 5d.). Per Packet of 100, 42s. (P.T. 11s. 5d.).*

For ages 6 to 10 years

TEACHER'S HANDBOOK. With introduction by Prof. CYRIL BURT, *1s. net.*

This test will be found particularly useful for backward children as mental capacity is gauged independently of reading ability. Time : 20 minutes.

TERMAN GROUP TEST OF MENTAL ABILITY

SPECIMEN SET, containing (1) Examination Forms A and B ; (2) Keys for Forms A and B ; (3) Manual of Directions. Price 2s. 6d. net in envelope (P.T. 3d.).

EXAMINATION FORMS A and B.

Per package of 25 Exam. Booklets, one Key Form, one Manual of Directions, 7s. 6d. (P.T. 1s. 9d.) ; per package of 100 Exam. Booklets, including Key Form and Manual, 25s. 6d. (P.T. 6s. 8d.). **For ages 10 plus.**

A new intelligence test based upon minute analysis of data specially collected for the purpose. Each of its several hundred items was measured against a composite outside criterion. For use in the upper standards of Modern Schools and in Secondary Schools. Can be completed in 35 minutes. There are no Tables of Norms. The author regards this test, not as useful in classifying children according to intellectual status, but as demonstrating how children will respond to educational treatment in various ways, and how they differ from one another.

The material consists of analogies, mixed sentences, classification, number series, Arithmetic, sentence meaning, etc.

NATIONAL INTELLIGENCE TESTS

By Professors HAGGERTY, TERMAN, THORNDIKE, WHIPPLE, *and* YERKES. **Adapted to English requirements.**

SPECIMEN SET, containing (1) Examination Forms A and B ; (2) Keys for Forms A and B ; (3) Manual of Directions. Price 3s. net in envelope. (P.T. 3d.).

SCALE A, FORM 2 : per package of 25 Exam. Booklets and 2 Key Forms, 7s. 6d. (P.T. 1s. 11d.) ; per 100 Exam. Booklets and 2 Key Forms, 25s. 6d. (P.T. 6s. 10d.). Time : 20 minutes.

SCALE B, FORM 2 : per package of 25 Exam. Booklets and 1 Key Form, 7s. 6d. (P.T. 1s. 11d.) ; per 100 Exam. Booklets and Key Form, 25s. 6d. (P.T. 6s. 10d.). Time : 19 minutes.

MANUAL OF DIRECTIONS : 1s. 3d. net.

For pupils from 8 to 13 years of age.

These tests are primarily an adaptation for English school purposes of the group intelligence tests used in the examination of recruits in the U.S. Army. Their preparation was undertaken by the National Research Council, which delegated the work to a committee of psychologists, including Dr Terman.

THE DAWSON MENTAL TESTS

By SHEPHERD DAWSON, M.A., D.Sc.

Size 9½ × 7¼ inches. Forms A and B, 8 pages 6d. each (P.T. 1½d.); per 25 of either form, 4s. 6d. (P.T. 1s. 3d.) ; per 100 of either form, 15s. 6d. (P.T. 4s. 3d.).

MANUAL, Norms, and Key, 1s. 3d. net. **For ages 11 plus.**

This test will be found useful for grouping pupils on admission to secondary or post-primary schools. They are completed in forty minutes. The material consists of intelligence questions, opposites, analogies, drawing tests, rearrangement of letters to form words, codes, etc.

THE NORTHUMBERLAND MENTAL TESTS

By Prof. GODFREY H. THOMSON, *Edinburgh University.*

EXAMINATION FORM No. 1. Size 9×7½ inches. 8 pages, with Practice Test. 25 copies, 6s. (P.T. 1s. 8d.) ; 100 copies, 21s. (P.T. 5s. 8d.).
For ages 10-12½ years

EXAMINATION FORM No. 2. Size 10×6 inches, 12 pages. 25 copies, 6s. (P.T. 1s. 8d.) ; 100 copies, 21s. (P.T. 5s. 8d.) **For ages 11-14 years**

TEACHER'S MANUALS I and II, 1s. 3d. net each.

SPECIMEN SETS, I and II. Containing 1 Examination Form, with Practice Test, and 1 Teacher's Manual, in envelope. 1s. 9d. net each set (P.T. 1½d.).

These tests have been tried out on nearly 14,000 children in the schools of Northumberland. They are simply applied, completed in the hour. A special feature is the provision of differently graded sets for children between 10 and 12 years, and those between 11 and 14 years. On the whole the tests are rather difficult and are designed for children of high intelligence.

OTIS GROUP INTELLIGENCE SCALE

By ARTHUR S. OTIS.

SPECIMEN SET, containing 1 Primary Exam. and 1 Advanced Exam. Form, Manual, Keys, Class Record, 4s. 6d. net (P.T. 6d.).

PRIMARY (age 6-9), FORMS A & B ; ADVANCED (age 10 plus), FORMS A & B.

Per Packet of 25 of any one Form and 1 Class Record, 6s. (P.T. 1s. 8d.)
Per Packet of 100 Forms, and 1 Class Record, 21s. (P.T. 5s. 8d.).

MANUAL, with Norms, 1s. 9d. net.

EXAMINER'S KEY : 20 pages, 6d. net. (For use with Advanced Exam. only.)

An absolute point scale to measure scientifically and rapidly in groups the native mental ability of children. Tests can be completed in an hour.

OTIS SELF-ADMINISTERING TESTS OF MENTAL ABILITY

By ARTHUR S. OTIS.

SPECIMEN FORMS separately, Forms A, B, C, D of Intermediate Examination (ages 11-14 years), Forms A. B, C, D of the Higher Examination (ages 14 and over), 6d. each. (P.T. 1½d.).

MANUAL OF DIRECTIONS and Key, 1s. 3d. net.

INTERPRETATION CHART for Grouping, PERCENTILE GRAPH, IQ SCALE and CLASS RECORD, 6d. net (P.T. 1½d.).
Per packet of 25 of any one form, 6s. (P.T. 1s. 8d.).

SPECIMEN SET of each Examination, containing Examination Forms A. B, C, and D, Manual of Directions and Key, and Interpretation Chart, 4s. 6d. net each (P.T. 11d.).

These tests have many advantages, only a few initial directions being necessary for self-administration. Practice Tests are provided. Time : 20 or 30 mins. There is a wide variety of material comprising 20 types of questions, including General Knowledge, classification tests, opposite tests, word sequences, and mental deduction tests. The reliability co-efficients are .95 and .92 respectively.

OTIS QUICK-SCORING MENTAL ABILITY TESTS

By ARTHUR S. OTIS.

ALPHA TEST (ages 7-10), BETA TEST (ages 10-15), GAMMA TEST (ages 15-18).

TEST FORMS A and B for each test, 6d. each (P.T. 1½d.) ; per 25 of any one form, 6s. (P.T. 1s. 8d.) ; per 100, 21s. (P.T. 5s. 8d.).

SPECIMEN SET containing Test Forms A and B, Key, Class Record and Manual, 3s. net each (P.T. 4d.).

MANUAL with norms, 1s. 3d. net each. KEYS with CLASS RECORD, 9d. (P.T. 1d.).

This Test is fully standardized in each Section. The *Alpha* Test (Time limit : 20 mins.) is new ; the *Beta* and *Gamma* Tests (Time limits : 30 mins.) are later modifications of the Otis Self-Administering Tests, Intermediate and Higher Exercises respectively. The *Alpha* Test is Non-verbal, the *Beta* and *Gamma* Tests Verbal. Each Scale is very simple to administer. The questions are of a similar type throughout, the pupil having to choose the correct answer to questions or pictures from a series, or to mark the unallied object in a row of pictures or words.

THE SIMPLEX GROUP INTELLIGENCE SCALE

By C. A. RICHARDSON, M.A., *Author of "Methods and Experiments in Mental Tests."*

For ages 9 plus.

TEST BOOKLET. Size 11¼×8¾ inches, 16 pages, 25 copies with Examiner's Report, 7s. 6d. (P.T. 2s.) ; 100 copies, 25s. 6d. (P.T. 6s. 11d.). Time : 90 minutes.

TEACHER'S MANUAL. Size 9×6 inches, 12 pages, 1s. 3d. net.

EXAMINER'S STENCIL KEY, 1s. 3d. net.

SPECIMEN SET. Containing 1 Test Booklet and 1 Teacher's Manual with Examiner's Report and Examiner's Stencil Key, in Envelope, 3s. net. (P.T. 1½d.)

THE SIMPLEX JUNIOR INTELLIGENCE SCALE

By C. A. RICHARDSON, M.A. *For ages 7-14 years. Time : 45 mins.*

For ages 7—14 years.

TEST BOOKLET. 8 pages, 6d. (P.T. 1½d.) ; Per 25, 6s. (P.T. 1s. 8d.) ; Per 100 21s. (P.T. 5s. 8d.). MANUAL AND KEY, 8d. net.

Consisting of graded general-knowledge questions, needing little expert knowledge to administer, Simplex Tests can be used for individual or group examinations. They have been used by numerous education authorities.

SELECTIVE VOCABULARY TEST

By P. SLATER, M.A.

A test which is sensitive to sex differences and will be of value to clinical psychologists dealing with deliquent, perverted, or neurotic cases.
25, 2s. 6d. (P.T. 8d.) ; per copy, 3d. (P.T. 1d.) Manual, 3s.

CATTELL INTELLIGENCE TESTS

By R. B. CATTELL, B.Sc., Ph.D., *with Introduction by* C. SPEARMAN.

SCALE O. Dartington Scale. For mental ages 4—8 years.

EXAMINER'S SET : 50 Test Forms, Cards for Test II, Handbook and Norms, in large envelope, 27s. net (P.T. 3s.).

TEST FORMS, 12 pages 6d. (P.T. 1½d.) ; Per Packet of 25, 7s. 6d. (P.T. 2s.) ; Per Packet of 100, 25s. 6d. (P.T. 6s. 11d.) ; Teachers' Handbook with Norms, 1s. 9d. net. Cards for Test II (Line's Test), 13s. 6d. net. (a classification test, explained in the Handbook).

SCALE I. Non-Verbal. For mental ages 8-11. Forms A and B, 16 pages each, in packets of 25 of either A or B, 7s. 6d. (P.T. 2s.), Packets of 100, 25s. 6d. (P.T. 6s. 11d.). Time : 27 minutes.

SCALE II. For mental ages 11-15. Forms A or B, 12 pages each, per 25 of either A or B, 6s. (P.T. 1s. 8d.). Per 100, 21s. (P.T. 5s. 8d.). Time : 66 minutes.

SCALE III. For mental ages 15 and upward. Forms A and B, 12 pages each, per 25 of either A or B, 6s. (P.T. 1s. 8d.). Per 100, 21s. (P.T. 5s. 8d.). Time : 66 minutes.

A PRACTICE TEST is provided with each form in Scales II & III.

EXAMINERS' KEYS to 1a, 1b, 2a, 2b, 3a, 3b, 2s. 6d. net each.

HANDBOOK including Norms, 1s. 9d. net.

SPECIMEN SET, including Handbooks ; Scale 0 Test Form ; Scale I, Forms A and B ; Scale II, Forms A and B ; Scale III, Forms A and B ; 7s. 6d. net (P.T. 11d.).

It has been the object of the designer of these tests to produce a set of intelligence scales capable of testing the whole range of intelligence development from that of the normal child of four to that of the moderately gifted adult, and constructed throughout on uniform principles. They are fully standardised.

THE RORSCHACH TECHNIQUE

By B. KLOPFER, Ph.D., *and* D. M. KELLEY, M.D. *18s. net.*

A limited supply of this up-to-date work is available. The book is based on some seven years' practical work in teaching the method to psychologists and psychiatrists. The authors are recognized experts in the subject, and specialists will find the book a reliable and comprehensive guide to a technique of particular value in social work, personnel administration, and vocational guidance. A sample Record Form and an Ink-blot Chart are included.

Individual Record Blanks—*per packet of 25, 7s. 6d. (P.T. 2s.).*

Cards for the Ink-Blot Test to be obtained through Hans Huber, Bookseller and Publisher, Bern, Switzerland.

HOW TO CALCULATE CORRELATIONS

By Prof. GODFREY H. THOMSON, *Edinburgh University.*
Demy 8vo. 24 pages, 2s. net.

A new edition of a non-mathematical Book of Instruction.

INGLIS' INTELLIGENCE QUOTIENT VALUES

By ALEXANDER INGLIS, Ph.D. *Second Edition. Revised. Size 10½×7 inches, 16 pages, sewed, 3s. 6d. net.*

In this new edition use has been made of the work done by Lewis M. Terman and Maud A. Merrill in *Measuring Intelligence.*

THE DUPLEX ABILITY TESTS

By F. M. EARLE, M.Ed., D.Sc.

The purpose of these tests is to measure general ability for 'secondary' education. There are four tests, each designed for and standardised on a single year group. The combined tests cover the age range 10 to 13 years. The Duplex Tests can be supplied only to Educational Authorites and Personnel Departments. Prospectus on application.

TESTS 1 and 2. 12 pages, per 25, 10s. 6d. (P.T. 2s. 7d.); per 100, 40s. (P.T. 9s. 9d.)
TEST 3. 16 pages, per 25, 12s. 6d. (P.T. 3s.); per 100, 45s. (P.T. 11s. 1d.)
TEST 4. 24 pages, per 25, 15s. (P.T. 3s. 8d.); per 100, 57s. 6d. (P.T. 14s.)
MANUAL, 2s. 6d.
SPECIMEN SHEET with Manual, 5s. 9d. (P.T. 10d.)

CONSTRUCTING TESTS AND GRADING

By HENRY D. RINSLAND, Ph.D. *Size 9×6 inches, 340 pages, 10s. 6d. net.*

A book of great practical value to the teacher seeking to improve the technique of standardising and testing.

METHODS AND EXPERIMENTS IN MENTAL TESTS

By C. A. RICHARDSON, M.A. *Crown 8vo., 64 pages, 2s. net.*

A new edition of a comprehensible account of intelligence tests which will be invaluable to all who have to administer them.

YOUR MIND AND MINE

5th Impression

By R. B. CATTELL, M.A., B.Sc., Ph.D.
Size $7\frac{1}{2} \times 5\frac{1}{4}$ *inches, 214 pages, 8s. 6d. net.*

"A masterly survey of all the important branches of pure and applied psychology." *Psychologist.*

DESCRIPTION AND MEASUREMENT OF PERSONALITY

By R. B. CATTELL. *589 pages, 12s. 6d.*

An important work bringing together both statistical and clinical procedures.

THE NEW SECONDARY SCHOOLS AND THE SELECTION OF THEIR PUPILS

By DAVID W. OATES, M.A., D.Sc., *Director of Education, Newport. 2s. net.*

A book of immense topical interest to all concerned with the new education. Its conclusions are based on careful research and a wide practical experience.

MENTAL TESTS

By FRANK N. FREEMAN, Ph.D.
New and Revised Edition. Crown 8vo, 427 pages, 12s. 6d. net.

Made in Great Britain *5m./947/APT/L69*
